

# HINES TO ACT ON SHOPMEN'S DEMANDS

## WILSON GIVES AUTHORITY TO SETTLE PROBLEM

### States Men Must Return to Work Before Action is Taken

WASHINGTON, Aug. 7.—President Wilson tonight notified Director General Hines that he was authorized to take up the demands of railroad shop employees for higher wages and decide them on their merits.

The president said that the letter sent him by Senator Cummins, chairman of the committee on interstate commerce, "had set me free to deal as I think best with the difficult question of the wages of certain classes of the railroad employees," but added:

**Men Create Chief Obstacle.**

"The chief obstacle to a decision has been created by the men themselves. They have gone out on a strike and repudiated the authority of their officers when they were urging action in regard to their interests."

The president's decision was announced tonight from the white house in a letter sent to Mr. Hines. The president said that "until the employees return to work and recognize the authority of their organization the whole matter must be at a standstill."

The president's letter follows:

**Wilson's Letter.**

"My Dear Mr. Director General: I am just in receipt of the letter from Senator Cummins, chairman of the senate committee on interstate commerce, which set me free to deal as I think best with the difficult question of the wages of certain classes of railroad employees and I take advantage of the occasion to write you this letter in order that I may, both in the public interest and in the interests of the railroad employees, make the present situation as clear and definite as possible.

"I thought it my duty to lay the question in its proper perspective before the committee of the senate, because I thought I should not act upon the matter within the brief interval of government control remaining, without their acquiescence and approval. Senator Cummins' letter, which speaks the unanimous judgment of the committee, leaves me free and indeed imposes upon me the duty to act.

**Delay Was Unavoidable.**

"The question of the wages of railroad shopmen was submitted, you will remember, to the board of railroad wages and working conditions of the railroad administration last February, but was not reported upon by the board until July 16. The delay was unavoidable because the board was continuously engaged in dealing with several wage matters affecting classes of employees who had not previously received consideration, the board now, having apprised us of this inability at any rate for the time being to agree upon recommendation, it is clearly our duty to proceed with the matter in the hope of disposing of it.

"You are therefore authorized to say to the railroad shop employees that the question of wages they have raised will be taken up and considered on its merits by the director general in conference with their duly accredited representatives. I hope that you will make it clear to the men concerned that the railroad administration cannot deal with problems of this sort or with any other problems affecting the men, except through the duly chosen international officers of the regularly constituted organization and their authorized committees.

"Matters of so various a nature and affecting so many men cannot be dealt with except in this way. Any action which brings the authority of the authorized representatives of the organization into question or discredits it must interfere with, if not prevent, action altogether.

**Men Repudiate Authority.**

"The chief obstacle to a decision has been created by the men themselves. They have gone out on a strike and repudiated the authority of their officers at the very moment they were urging action in regard to various interests.

"You will remember that a conference between yourself and the authorized representatives of the men was arranged at the instance of these representatives for July 28, to discuss the wage question and the question of a national agreement, but before this conference took place or could take place, local bodies of railway shopmen took action looking toward a strike on the first of August. As a result of this action, various strikes actually took place before there was an opportunity to act in a satisfactory or conclusive way with respect to the wages. The repudiation of the authority of the representatives of the organization concerned, there can be no consideration of the matter

in controversy. Until the employees return to work and again recognize the authority of their own organization the whole matter must be at a standstill.

**Created Special Machinery.**

"When federal control of the railroads began, the railroad administration accepted existing agreements between the shopmen's organization, and the several railroad companies, and by agreement machinery was created for handling the grievance of the shopmen's organization of all the railways whether they had had the benefits of definite agreements or not. There can be no question therefore of the readiness of the government to deal in a spirit of fairness and by regular methods with any matters the men may bring to their attention.

"Concerned and very careful consideration is being given by the entire government to the question of reducing the high cost of living. I need hardly point out how intimately and directly this matter affects every individual in the nation and if transportation is interrupted, it will be impossible to solve it. This is a time when every employee of the railways should help to make the processes of transportation more easy and economical rather than less, and employees who are on strikes are deliberately delaying a settlement of their wage problems and of their standard of living. They should promptly return to work and I hope that you will urge upon their representatives the immediate necessity of their doing so."

Cordially and sincerely yours,  
(Signed) Woodrow Wilson.

**Hines Notifies Unions.**

Director General Hines notified the unions immediately that the railroad administration was ready to take up the question "as soon as the employees return to work."

In a letter to B. M. Jewell, acting president of the railway employees' department of the American Federation of Labor, Mr. Hines said: "I enclose a letter just received from the president relative to the wage matter. It is obvious that it is of the highest importance not only in the interest of the public but in the interest of the employees that they promptly return to work. The situation has been clarified by the definite indication that congress does not wish to take any action in the premises the railroad administration stands ready to take up the wage question on its merits with the duly accredited international officers and their authorized committee as soon as the employees return to work."

**May End Sporadic Strikes.**

It was believed the president's decision would put a sudden end to sporadic strikes, denounced as illegal by union officials, but involving perhaps 80,000 men and normal traffic. It was taken for granted that the menace of a general strike to compel higher wages likewise was removed.

If Director General Hines orders an increase in wages either an advance in rates or a congressional appropriation will be necessary to provide the money. The fourteen principal railroad unions in a joint communication to the director general have suggested the latter.

Before the president's letter was made public, J. J. Forrester, president of the Brotherhood of Clerks, Freight and Express and Steamship Employees, said that the 450,000 men of the union would begin taking a strike vote tomorrow.

There was no indication tonight as to how Mr. Hines would proceed to the senate of the wage demands. It was believed a new tribunal would be constituted for the purpose.

**RURAL CARRIERS WANT THREE CENT POSTAGE**

National Organization Will Begin Campaign for Additional Postage Charge.

Announcement that a campaign by the National Rural Carriers Association for restoration of 3 cent postage would begin this fall was made at the convention of the Missouri Rural Carriers a few days ago.

W. P. Brown of Washington, attorney for the national organization, said that the carriers intended to go before congress to ask for more pay, but that they have no hope of getting it unless the postage rate is increased.

"The reduction of domestic postage to 2 cents in July," said Brown, "was totally unexpected by the country and was a great mistake."

**DR. FRANK AND FAMILY RETURN FROM MISSOURI**

Dr. and Mrs. Walter L. Frank and their children returned Thursday evening after a visit of a week or more at Poplar Bluff, Mo. They were the guests of Dr. Frank's parents and other relatives. Dr. Frank's brother, Vernon Frank, accompanied them to this city for a visit of several days. The trip was made in Dr. Frank's car.

## PLUMB URGES ENACTMENT OF HIS RAIL BILL

WASHINGTON, Aug. 7.—Warning that the labor man has reached that point where his activities may cease "because he cannot much longer stand the diminishing return for his work," was expressed today by Glenn E. Plumb, counsel for railway brotherhoods, in urging enactment by congress of a bill drawn by him for public ownership of railways. This gloomy view of conditions was given by Mr. Plumb after a five hour appearance on the witness stand during which he charged systematic plundering of the transportation highways of the country and denied he had come forward with the Plumb plan for solving railway evils at this time in order to link it up with the high cost of living.

**Apparently Cognizant of Rumors.**

Mr. Plumb apparently was cognizant of the rumors sweeping thru the capital that he had picked an unusually propitious time for presenting his bill which organized labor has claimed would help put down the living cost thru reduction of freight rates and elimination of private capital from every transportation company in the United States.

Except for the invitation from Chairman Esch of the house interstate commerce committee, the Plumb plan, he said, would not have been brought up until early fall.

While speaking thru the country the witness declared that he found an overwhelming sentiment for radical change in railroad control.

There was no doubt, he said, of great industrial unrest due to the mounting cost of living.

**WESTERN UNION EMPLOYEES GET BONUS**

Will Receive Bonus During October and December According to Unofficial Report.

The Western Union employees will get a bonus in October and December this year, according to an unofficial word received at the local office. In October all employees having more than six months' service will be given a bonus equal to 32 per cent of that month's pay, and in December they will be given a bonus for 20 per cent of that month's pay.

Back in the middle of July the employees got a bit of back pay in addition to their wages. It came about in this way, before the government took over the lines in 1918 the company had made the statement that the increases that it could give in that year would not exceed \$35 per month. This bonus was not adhered to, however, by the government and the amount which the local men got beyond their former pay was between \$20 and \$30 per month. In the middle of July, however, the rest of that \$35 raise, including back pay for five months, was given the employees.

**HAVANA MAN TELLS OF VARYING PRICES**

Describes How High Cost of Living Hits the Farmer.

Representatives of the Illinois Agricultural Association finished a convention in Chicago yesterday called to adopt an attitude toward legislation pending in congress for regulation of the packing industry and also to guarantee the federal wheat price guaranty.

Charles Borgioli of Havana, Ill., related to the delegates an instance of how the high cost of living hits the farmer.

"Recently I bought two pairs of shoes for my children. They cost me \$12.50. 'Leather is very expensive these days' was the explanation at the store. Soon after that one of my cows died and then I lost a calf. I got \$6.50 for the two hides. 'Leather is very cheap now,' was the explanation. 'As near as I can figure it, each of my children is wearing his equivalent of a hide on each foot. There is a great big gap somewhere between the producer and the ultimate consumer.'"

Chicago, Aug. 7.—Packing house security suffered a severe break this afternoon, owing to anti-trust action by the government. Swift & Co. stock closed at 121½, a fall of 9½ since last night.

## SEEKING TO OUST MAYOR FROM OFFICE

JUDGE SMITH WILL HEAR PETITION FOR QUO WARRANTO.

Notice of a petition "in the nature of a quo warranto" was served upon Mayor E. E. Crabtree yesterday by William N. Haigrove as attorney for John S. Green. The notice stated that a motion for leave to file information in the nature of quo warranto at the court house in Springfield before Judge Smith would be heard Monday, August 18, at 10 o'clock. At that time the defendant, Mr. Crabtree, in person or by attorney may be present to resist the motion.

The petition is for the purpose of trying the title of the defendant to the office of mayor because of an alleged defect in the title. Case Comes Before Judge Smith.

As indicated, the petition for the quo warranto writ will be argued before Judge Smith at Springfield. If the writ is granted then the quo warranto proceedings will be filed to the circuit court of Morgan county and will come to a hearing at an early date as a part of the proceedings of the May term of court, which has not yet been adjourned, will be heard in vacation or come to a hearing at the November term.

Mr. Haigrove when asked about the case said he is acting as attorney for Mr. Green in connection with the Patton & Patton of Springfield. Mr. Haigrove said that he did not know of the names of any of the parties who might be associated with Mr. Green in bringing this proceeding. The attorney said further that one member of the Patton firm is now in California and for that reason he is taking a more active part in the legal proceedings surrounding the case than would otherwise have been true.

**Objections Before Canvassing Board.**

It will be remembered that the petition of Mr. Crabtree with a number of other candidates subsequently declared elected, was filed one day later than the law requires. Formal objection was made before the canvassing board by Mr. Haigrove as attorney, the petition at that time having been filed under the name of J. S. Green. At the same time objections were filed by J. O. Priest in behalf of Edward W. Wannamaker, directed against Edward Williamson, also a candidate for alderman in the second ward. The canvassing board after listening to the argument of attorneys overruled the objections and the names of the candidates as shown by the returns in the election were certified to the city clerk and given place upon the official ballot.

Mr. Crabtree, like other citizens, had doubtless heard many reports that the court proceedings were to be instituted but nevertheless the serving of the notice came somewhat as a surprise as the original complaint was made months ago. It does not appear just why those interested in the endeavor to oust Mr. Crabtree passed by many weeks that the circuit court was in session here and still failed to file a suit or a petition for a quo warranto writ.

**The People Are Interested.**

When Mr. Crabtree became a candidate it was as the result of urging by friends. He in no way sought the office but it is fair to presume that since he did become a candidate and was elected by such a large majority, he will naturally prefer to continue in office and to endeavor to work out to a successful conclusion some of the difficult questions which now confront the city.

At any rate, a majority of people will be greatly interested in this proceeding and without question the quo warranto proceedings seeking to defeat the wishes of the majority will be vigorously resisted.

**J. RUSSELL ARTER ON RIVER TRIP TO NEW YORK**

J. Russell Arter, better known as "Doc" by his friends, has written his mother, Mrs. H. C. Arter of 347 East College avenue that he has been assigned to the U. S. S. Eagle 22 and expected to start soon on a trip to New York. The young man has been stationed at the naval training camp at Detroit, Mich. He says they were expecting a very enjoyable trip up the St. Lawrence river past Quebec and Montreal and along the coast by Newport and other ports.

Young Arter states that he has no idea when he will get out of the service but declares that he is not anxious to do so now that they are going to travel. He will be the only medical man on board the Eagle line as like millionaire's pleasure boats.

## Reports Large Food Stocks In Storage

WASHINGTON, Aug. 7.—Altho prices of practically all important foods have shown a substantial increase in the last year, stocks of food held in storage on June 1, were approximately 20 per cent greater than those of June 1, 1918, according to a memorandum showing the relation between storage figures and prices issued today by the federal trade commission. Government stocks were excluded from the comparison.

"The fact that stocks of many important foods were much larger on June 1, this year, than last year," said the commission's statement, "while prices were as high or higher, apparently means that they are being withheld speculatively for a world demand which is not here but which is expected when hunger impelled strikes secure higher wages with which higher food prices can be bought."

To show that the "law of supply and demand is not working," the commission listed eight staple foods which on June 1, showed an increase in stocks withheld from the market ranging from three to 29 per cent over stocks on June 1, 1918, and in each instance there was shown to have been a substantial advance in the wholesale price in that period. Stocks of frozen fowls showed the maximum increase of 28 per cent and the price despite this fact increased three cents a pound. Wheat stocks showed an increase of 17 per cent with an increase in price of 31 cents. Flour stocks, an increase of 21 per cent with an increase of nearly three dollars a barrel; egg stock, an increase of 9.8 per cent, with an increase in price of 11 cents, and butter stocks an increase of 129 per cent with the price soaring 12 cents. Salt beef, canned salmon and canned corn completed the items in this table, the latter showing an increase of 91 per cent in stocks with an increase in price.

All dry storage stocks, according to the commission's figures showed an average increase of 124 per cent. Of these not listed in the above table stocks of rye increased 346 per cent; barley 297 per cent; buckwheat flour 327 per cent and canned tomatoes 202 per cent.

Increases in other cold storage stocks were shown as follows: cured beef 103 per cent; frozen lamb and mutton 91 per cent; frozen pork 29 per cent and pickled pork 10 per cent.

**LIGHT YIELD REPORTED IN SOUTH DAKOTA**

Jacksonville Boys Find Little Work in Northern Harvest Fields.

It is reported that a number of Jacksonville and Morgan county young men who left this city several weeks ago for South Dakota to work in the harvest fields in that state are not finding a great amount of work to do on account of the lightness of the wheat yield in that state. A Morgan county resident who went to South Dakota a week or so ago to purchase land returned to Jacksonville very much disappointed in the land there and on account of this year's grain yield decided not to purchase land in the northern state.

**JAMES BARNES LANDS AT NORFOLK, VIRGINIA**

Jacksonville Boy Arrives in This Country After Overseas Service With Marines.

Mrs. Garm Norbury received a telegram yesterday that her brother James Barnes had arrived at Norfolk, Va. He has been with the U. S. Marines in overseas service since last fall. The word of his arrival was a glad surprise as none knew of his coming on the transport. Mr. Barnes is now expected to arrive early in the service and may reach Jacksonville within a short time.

**WORK ON THE MONEY MENT TO BE BEGUN**

The park board was formally notified yesterday that the work on the foundation of the soldiers' monument would be begun this week and they were requested to remove the welcome arch which has been erected in honor of the returning soldiers from the great war. If transportation troubles are settled it is expected to proceed right along with the work according to the action of the county board. The contractors for the granite said they expected to be able to ship their goods in August so it is hoped that the work will proceed without further delay.

## WILSON TO SPEAK TO CONGRESS ON PRICES TODAY

**Executive to Suggest Measures to Bring Relief at Once**

WASHINGTON, Aug. 7.—President Wilson put the finishing touches on his high cost of living address to congress tonight and prepared to deliver it tomorrow at 4 p. m.

One possibility loomed up to threaten the president's plans. It was that the leaders might not be able to round up a quorum in the house and that some member insisting on parliamentary rule, might forestall the joint session of house and senate.

To insist on Legal Quorum.

Representative Blanton, Democrat, Texas, served notice on Republican Leader Modell that he would insist on a legal quorum.

Republican and Democratic leaders made the telephone wires hot tonight with messages ordering absentees back in time. They expressed confidence that a legal quorum would be on hand.

The address will be confined to laying before congress what measures in the opinion of the president and of the sub-committee appointed by Attorney General Palmer, should be enacted at once to bring relief to the public from the existing high prices. The president will deal with such elements, it was learned authoritatively as labor problems and strikes, and production which would be interfered with by strikes.

**NO STATE LAW BARS CHILD AUTO DRIVERS**

On and After First of Year New Law Becomes Effective.

There is at present no state law prohibiting minors from operating motor vehicles on the public highways.

A short time ago there was an auto accident in the west part of the county which brought up the legal right of a lad of 15 years to run an automobile. As there seemed to be a difference of opinion regarding the law, the Journal wrote to Secretary of State L. L. Emmerson to ascertain the facts in the matter.

The secretary of state's reply is given herewith:

Springfield, Aug. 4th, 1919. The Journal Company, Jacksonville, Ill. Gentlemen:

I have your letter of the 2nd inst., relative to an order being issued by the Chief of Police of your city warning boys and girls under 16 years of age for driving motor vehicles.

In this connection I desire to say that the Illinois Motor Vehicle Law is silent with reference to the age of a person driving an automobile for pleasure purposes only.

While there is no State Law which prohibits children from operating motor vehicles for pleasure purposes, your city council would have authority to pass such a local ordinance should they so desire.

On and after January 1, 1920 a new law becomes effective which prohibits children under the age of 15 driving a car for any purpose whatsoever.

Yours very truly,  
Louis L. Emmerson,  
Secretary of State, Auto Department.

**FIRE LOSS GREATER THAN INDICATED**

Only Strenuous Work Thru Night Hours Saved Crabtree House at Omema From Destruction.

Edgar E. Crabtree will leave tonight for Omema, Mich., to adjust the loss by fire on his property there and to let the contract for rebuilding work. It will be a hurried trip and Mr. Crabtree will be back at his desk in a week or ten days.

Fire one night recently destroyed a four room building in the rear of the house the Crabtree family is occupying this summer. In addition considerable damage was done to the house and it was only by bucket brigade work continuing from midnight until dawn that the house was saved. Water was carried from the lake by this laborious method and two fire extinguishers were also used. It was not until yesterday that Mr. Crabtree heard about the full extent of the damage done and that the trip to Omema would be necessary.

## Would Demand Powers Accept Reservations

WASHINGTON, Aug. 7.—A determination to stand against any reservations to the peace treaty, which do not specifically require acceptance by the other powers before the United States enters the league of nations was voiced in senate debate today by Republican leaders. Senator Lodge, chairman of the foreign relations committee, declared that while a reservation might become void if objected to by the other nations, he hoped there would be a definite declaration by the senate that to make the treaty binding the other powers must accept the reservations made by this government.

Senator Borah declared that "to a certain number" the opponents of unreserved ratification would insist upon such a course.

A proposal by Senator Pittman, Democrat, Nevada, that reservations be embodied in a separate resolution and not made a part of the ratification was opposed by the opposition leaders as futile. Senator Kellogg, Republican, Minnesota, argued that unless reservations changed the meaning of the treaty, their adoption would not impair the binding force of the ratification. As an outgrowth of objections to the special treaty with France, the senate adopted a resolution by Senator Walsh asking the judiciary committee whether there were any constitutional obstacles to that treaty's ratification.

In a legal argument, Senator Kellogg declared that treaties could be made obligating to the United States to make war under certain circumstances.

His discussion was directed rather toward the obligations assumed under the league covenant.

There was much informal discussion among the senators over President Wilson's statement on Shantung. Some bitter opponents of the treaty declared the president's information was not sufficient to dispel suspicion of Japan's intentions in the Chinese province, but other senators reserved their judgment.

**MAY OPEN CLASSES FOR HOSPITAL WORKERS**

Department of Public Welfare Plans Educational Feature at State Hospital.

One of the ways in which the department of public welfare at Springfield is at present seeking to depart from precedent is in the matter of education of the employees at the various state institutions.

The department has in mind at the present time the employment of a teacher at the Jacksonville State hospital for the express purpose of giving the first and second years of high school to those employees who will be ambitious enough to make the effort. It is thought that possibly the state could pay half the expense and the pupils the other half.

It has been stated by a member of the department of public welfare that the payment by the pupils or state employees would be a measure of their sincerity and determination to make the plan a success. It is clear that the state has got to begin training its own people in all of the professional lines and this idea appears fundamental in any system of training.

A. L. Bowen, superintendent of charities was a visitor at the Jacksonville State hospital about a month ago and stated himself as being impressed by the interest shown by many of the employees, especially young women in the work undertaken in behalf of rehabilitation of patients.

If such a plan were to be worked out for the local institution the co-operation of Supt. Perrin and County Supt. Vasconcellos would be necessary in the securing of a teacher who could give at least the first year of high school work. The theory upon which the state department is inaugurating this plan is that the state employee must be trained and educated so that the employee may in turn train and care for, with greater skill, the patients and inmates of the state institutions.

It is believed that if a teacher can be secured for this work that a large number of the employees of the state hospital will avail themselves of the opportunity to receive a high school education. The work is indeed a worthy one and deserves the hearty co-operation of local city and county educators to aid in its success.

**VETERANS TO HOLD REUNION**

Camp Grant, Ill., Aug. 7.—Illinois veterans of the 33rd division will hold a reunion in Chicago September 26, the first anniversary of the launching of the Meuse-Argonne offensive. It was announced at Camp Grant today.

## DEMAND GUARDS BE WITHDRAWN FROM YARDS

**More Than 100,000 Involved—Hundreds Walkout Thursday**

CHICAGO, Aug. 7.—Representatives of forty two union locals of stock yards employees voted tonight for a general strike tomorrow unless militia, policemen and deputy sheriffs are withdrawn from the yards. More than 100,000 persons are employed in the stock yards.

**Strike Virtually Begins.**

A strike was virtually begun today when hundreds of white men quit work after about 3,000 of the 15,000 negro workers returned to work under troop protection following virtual exile of more than a week due to the race riots. Union men declared their objections based on the presence of the guards and that while they held no prejudice against the negro's color, the majority of the negroes were non-union. While union men said about 5,000 men had walked out, packing company officials placed the number at about 650.

Previous to the strike vote of the local's representative officials of the stock yards labor council held a conference with Federal Judge Alschuler, federal arbitrator in stock yard controversies. It is known that the negro situation was discussed and it is believed that the judge's aid in having the guards withdrawn was sought.

Several weeks ago a number of yards workers went on strike which was ascribed both to the presence of policemen in the yards and to negro workers. The police were withdrawn and the men returned.

**Dickson and Garrity Confer.**

A conference of Adjutant General and Chief of Police Garrity and their aides was held tonight following announcement of the vote to strike.

J. W. Johnstone, secretary of the stock yards labor council, said the union men did not propose to work under guard and that an unsuccessful effort had been made to see Mayor Thompson. A similar effort to meet Governor Lowden failed and Adjutant General Dickson was told them, according to Johnstone, that the mayor was in full charge of police arrangements and that the militia was only aiding the police.

"The stock yards was one of the danger spots most feared by the authorities during last week's riots. Militiamen have been guarding the yards neighborhood for one week. Because of the labor difficulties based both on the race spirit and the movement to unionize the negroes, outbreaks were numerous. Some of the wildest rumors originated in the yard neighborhood. It was there too that after the riots had been quelled a fire destroyed blocks of homes of white yards workers, who declared negroes had set the fires."

**Unable to Verify Rumors.**

Reports that many negroes had been killed and their bodies thrown into Bubbly Creek; that several negroes had been hanged in a sheep house and that negroes had committed atrocities against white women were among the most current rumors, none of which has been found true.

On July 4 when local authorities feared outrages by radicals, mounted policemen appeared in the yards. Immediately union leaders protested and white workers and disputes over unionism were of almost daily occurrence, the union leaders laid the blame on the presence of the policemen.

## MUST BRIDGE THE GAP

In all this talk about the high  
cost of living there is a common  
acknowledgment that there is too  
great a gap between the producer  
and the consumer. If someone  
can speedily and with justice  
solve the question of bridging this  
gap, then a very long step to-  
ward solution of the big question  
will have been taken. There is  
doubt, but that profiteering will  
very largely disappear if neces-  
sary middlemen could be elimi-  
nated.

## PERHAPS HOOVER CAN HELP

Herbert Hoover as food admin-  
istrator was criticised by some  
members of congress but stands  
are mighty well. Mr. Hoover, all  
things considered, managed an  
enormous job with very little  
criticism. Probably he is the best  
informed man in the world today  
on general food conditions, and  
the best way in which the needs  
of the world can be supplied. So  
there is a worth while suggestion  
in the slogan "Send for Hoover."  
The public will approve sending

for anybody who can throw any  
real light on the present situa-  
tion.

The Pana telephone company is  
having a worse time even than  
most utilities. Operators have  
been on a strike for some time  
demanding a 50 per cent wage in-  
crease. Now the city authorities  
propose to do away with the com-  
pany's franchise unless service is  
immediately resumed. Telephone  
owners will look upon this course  
as confiscating their property for  
they can't resume service without  
meeting the operators' demands  
and declare that if they do the  
company will go bankrupt.

Out of all this industrial unrest  
has come one damage suit against  
a labor union. The Waterloo  
Gas Engine Co. is claiming a  
breach of contract which caused  
the company heavy losses. The  
demand for workers has been such  
during the past months that con-  
tracts between employers and em-  
ployees have not amounted to much  
more than is usually true of the  
contracts between teachers and  
school directors. But in most in-  
stances the employers have real-  
ized that changing conditions real-  
ized justified changes in contract.

## SENATOR SPENCER TAKES FAIR VIEW

It is a noteworthy fact that  
Senator Spencer of Missouri be-  
lieves that enforcement of the war  
time prohibition is unfair and un-  
just to the liquor interests. Judge  
Spencer is not a liquor man and  
for years he has been prominently  
identified with religious and civic  
movements. He does feel that the  
enforcement of the act is unfair  
because the liquor interests were  
promised a year before the com-  
ing of prohibition to adjust their  
business to prohibition condi-  
tions. Furthermore the act pre-  
sented the war in progress and  
except from a technical standpoint

the war was concluded months  
ago.

Senator Spencer is broad mind-  
ed on this subject, just as he is  
on others and shows the willing-  
ness to do that which is very dif-  
ficult for most public men and  
for private citizens. "To get the  
other fellow's view point," the  
man who makes a practice of  
studying difficult questions and  
situations from his own viewpoint  
and then putting himself in the  
other man's place is pretty sure  
to arrive at a fair and just deci-  
sion.

A. L. Erlanger, one of the pow-  
ers in the theatrical world, evi-  
dently believes that all attempts  
to make the prohibition amend-  
ment inoperative will fail. He  
has just announced that plans  
have been completed for the erec-  
tion of 12 new theatres in five  
large cities, the cost of each house  
to range from \$750.00 to \$1-  
000.000. The relations which  
these buildings have to the pro-  
hibition question is shown in the  
plans for wide promenade and  
elaborate parlors for the dis-  
pensation of soft drinks which  
are provided. The liquor inter-  
ests are still planning for refer-  
endum votes in a number of  
states but probably only a few  
of those identified with the  
movement have any genuine hope  
of accomplishing their purpose.

## THE RAILROAD CRISIS.

Railroad trade journals like  
the Railway Age are deeply con-  
cerned over the action of the  
brotherhoods, not so much in de-  
mand for increases in wages, but  
as the papers mentioned see it, in  
the intention to bring about gov-  
ernment ownership of railroads,  
no matter what the great ma-  
jority of the people think about  
this big problem.

In the minds of some people  
the crisis is near at hand and  
railroad brotherhoods are deter-  
mined to shortly bring about such  
a condition that the government  
may see government ownership  
and operation as the only quick  
and satisfactory solution.

In the minds of still other ob-  
servers the present upheaval will  
result simply in an increase in  
wages and the question of gov-  
ernment ownership become para-  
mount in the presidential cam-  
paign of 1920. In that event the  
railroad men will put forward an  
extensive campaign of education.  
They will come before the people  
with distinct public ownership  
propaganda. No one will have  
objection to this course. In fact  
they will approve it, for if rail-  
road workers are able to con-  
vince the public of the advantage  
of public ownership they have  
rightfully won the day.

## BUILDING AS A DUTY.

Setting aside the question of  
building as an investment, the  
time may not be far distant when  
citizens with money must look  
upon this question as a matter  
of duty. Within the past few  
days there have been a number  
of residents of country precincts  
in Jacksonville looking for suit-  
able homes. They have come here  
after fruitless search for empty  
houses in the towns of the coun-  
ty. The fact is that a great many  
farms where tenants are now liv-  
ing have been sold in recent  
months. These renters have not  
been able to secure other farms  
and so there is the necessity for  
them to move to some town or  
city, to locate either permanently  
or in a temporary way. This one  
fact alone is increasing the de-  
mand for houses.

Then there is the regular fall  
demand when the schools of  
Jacksonville resume operation,  
and this year the search for  
houses will be augmented in a  
distinct way by the coming of so  
many families associated with the  
Ell Bridge Co.

smile, and seem to think I'm well  
worth while, and smooth and  
passing fair. I often wonder  
how they'd act if I disclosed the  
doleful fact that I was busted  
flat, if I put up a hard luck tale,  
and for a bunch of borrowed kale  
should straightway pass the hat.  
No doubt the cordial smiles would  
freeze, and I'd be shunned as  
though disease had marked me  
for its own; and men I cornered  
would exclaim, "That I may play  
my private game, I need my every  
bone." And punk philosophers  
will say, "So runs the weary  
world away, and friendship is a  
snare; well fixed, you're greeted  
with a grin; but when your bank  
account's all in, you're turned  
down everywhere." When I go  
forth to work my friends, the sac-  
red bond of friendship ends, and  
that is right and just; they can-  
not love be or respect, if I sur-  
round them and collect their  
hard earned store of dust. I have  
good friends on every block; I  
meet good friends here; I walk,  
but they would turn and  
flee, if I should try, in friend-  
ship's name, to work some cheap  
leg pulling game, and that's as it  
should be.

## HONORED SOLDIERS OF NORTONVILLE

Supper Was Given in Honor of  
Returned Soldiers of Norton-  
ville Precinct—Annual Picnic  
August 12—Other Nortonville  
News Notes.

The soldier boys of this com-  
munity enjoyed the supper that  
was given in their honor recently.  
The ladies of the community  
brought enough cakes and sand-  
wiches and pickles to feed all that  
were there and the Woman's  
Community Club of Nortonville  
furnished the ice cream and  
coffee for the crowd. The evening  
was greatly enjoyed by all.

Don't forget to come to our an-  
nual picnic at Nortonville park,  
Aug. 12. Soup and fish will be  
furnished by Youngblood church  
and the Roodhouse band will fur-  
nish music for the day. Every-  
body come and enjoy the picnic.

Miss Ethel Whitlock has been  
visiting at Tom McNeely's the  
past week.

Mr. and Mrs. Whitlock were

Oxley Sunday.

Mr. and Mrs. Clyde Oxley, Cecil  
Oxley and Harold Darley had a  
narrow escape Sunday when their  
car turned over with them, throw-  
ing them out. The top of the car  
and one wheel were torn off and  
other damage was done.

Harry Fanning, Lawrence Shel-

## A MODEL HOSPITAL AND HOSPITAL ASSOCIATION

The people of Zanesville, O.,  
have a model hospital and hospi-  
tal well worthy of study and  
imitation. As here, the city has  
two hospitals, one very good one  
managed by the Catholic church,  
and one by a hospital associa-  
tion.

They decided they wanted a  
new building and went to work  
with a will and put it up. It is  
a model in every respect and as  
near perfection as such a struc-  
ture can well be. Its operating  
rooms are fine and in addition to  
the regular rooms it has an emer-  
gency room where unclear cases  
may be taken in haste. They have  
a special maternity department  
which is fine and during a  
recent visit the writer saw a lit-  
tle two pound arrival in the  
world.

Then they have a very com-  
plete arrangement for pathological  
research, complete sterilizing  
rooms, a well kitchen and all  
about the whole establishment is  
complete. They have an X-ray  
apparatus large enough for an in-  
stitution many times as large.

The hospital has 65 beds which  
is hardly as many as they would  
like but they will have an addi-  
tion some day. So far their  
nurses' home is not what they  
want but they will come later.

Another feature especially im-  
pressed the visitor and that was  
the way the enterprise is carried  
on. The association didn't merely  
put up the building and tell  
the superintendent to run it but  
the members contribute each  
year to the current expenses so  
that a goodly amount of chari-  
table work may be done. W. E.  
Gutrie and wife, brother and  
sister of George C. Guthrie and  
all, are members and pay a lib-  
eral sum each year to the enter-  
prise. If we only had such an  
association in Jacksonville—but  
what's the use wishing?

## BLUFFS STORE HAS CHANGED OWNERSHIP

Mrs. G. W. Sisson Sells Stock of  
Dry Goods and Groceries to  
Messrs. Harmon and Stickler—  
George J. Vannier Returns  
from Chicago Visit—Other  
Bluffs Items.

Bluffs, Aug. 6.—Mrs. G. W. Sisson  
has closed out her entire  
stock of dry goods and groceries  
to Messrs. Harmon and Stickler,  
prominent merchants of Willis-  
ville who have removed their  
families here and opened their  
store to the public Monday. Mrs.  
Sisson, who is suffering from a  
nervous breakdown, will throw  
aside business cares and take a  
much needed rest. Her sister,  
Mrs. Anna McLaughlin, who has  
been here for several months, will  
return to the home of her daugh-  
ter in Springfield.

George J. Vannier who left for  
a visit in Chicago expecting to  
spend the winter has returned  
home after ten days of city life.  
He thinks Bluffs is a safer place  
and at present, a more quiet place  
to live.

Little Miss Angela Hayes of  
Springfield is spending the week  
with her friend, Mrs. Mamie  
Reid.

The working force of machin-  
ists, helpers, etc., at the Wabash  
round house have been off duty  
since Saturday on account of the  
general strike.

Bennie Kesterson, who has  
been ill at his home for several  
days, is able to be out again.

Mrs. S. H. Rockwood and chil-  
dren left Monday for a visit with  
her parents, Mr. and Mrs. Charles  
Summers near Winchester.

Mrs. Nettie Masterson and sis-  
ter, Miss Helen Gunnells, return-  
ed from Jacksonville Friday  
where they have been the guests  
of relatives in that city and at  
Alexander for the past two  
months. The former will sell her  
property here and expects to buy  
a home in Jacksonville.

Miss Margaret Meats of Spring-  
field is visiting relatives in town.  
Mrs. Hershaj Bailey and chil-  
dren of Springfield, who have  
been visiting relatives here, re-  
turned home Monday.

Mrs. Harvey Harmon and chil-  
dren have returned from Spring-  
field where they have been the  
guests of relatives for the past  
two months.

Mr. and Mrs. Harvey Tipton  
and baby of Creston, Ia., have re-  
turned home after a pleasant visit  
with Horace Arnold and family.

Rev. H. R. Taylor will leave  
the latter part of the week to at-  
tend the F. M. conference at Ver-  
mont.

Mrs. Ewing Lankford left Sun-  
day for a visit with her son, Mr.  
Lankford and family of Beards-  
town.

## STATE HOSPITAL NOTES

Chief Nurse Miss Rose Whipp  
has gone to Chicago to take a  
special course in psychiatric nurs-  
ing. Miss Whipp expects to pursue  
this course for about three months  
and will complete her studies in  
Chicago before returning to her  
duties at Jacksonville State hospi-  
tal.

Dr. and Mrs. Marcellus have  
gone to Lincoln, Neb., on a vaca-  
tion visit. Dr. Marcellus is a  
physician on the state hospital  
staff. The trip to Nebraska was  
made overland.

Miss Carrie Hoppe, occupational  
director at the Jacksonville  
State hospital, is planning to at-  
tend the national convention of  
occupational therapy which will  
be held at the Henry B. Fay  
school in Chicago, September 8.

## WHITE HALL HORSES ON STATE FAIR CIRCUIT

Gregory Farm Show Herd of Per-  
cheron Horses Left Wednesday  
on Circuit of State Fairs Thru  
West and South—Eva Tango  
Still Winning—Other News  
Notes.

White Hall, Aug. 7.—The Greg-  
ory Farm show herd of Percheron  
horses was scheduled to leave  
Wednesday for Sedalia, Mo., and  
then follow the circuit of state  
fairs thru the west and south, in-  
cluding the Illinois state fair at  
Springfield. Much interest in  
fancy live stock circles was taken  
in the performance of this new  
herd of Gregory Farm Percherons  
for the reason that a fire two  
years ago destroyed the former  
show herd of Percherons at Greg-  
ory Farm since which time no ex-  
hibit has been made by this es-  
tablishment. The herd is thor-  
oughly conditioned and groomed  
for the state fair circuit, and a  
palace horse car was in readi-  
ness, but not a move can be made  
on account of the railroad situa-  
tion.

White Hall is feeling the pinch  
more seriously every day, and  
with the decision of the Chicago  
& Alton to abandon local freight  
trains and place the crews in the  
"chain gang," there is now no  
way to get switching done at lo-  
cal institutions served by the C.  
& A., and there is no prospect  
of getting a switch engine from  
Roodhouse to do the local switch-  
ing, as has been the case in past  
years when circumstances became  
pressing. The Condensed Milk  
Co. has some coal in the north end  
of the yards, while the plant is  
located in the extreme south end,  
necessitating hauling a consider-  
able distance if the plant is to be  
kept running. The Ruckel plant  
is served exclusively by the C. &  
A., but they have a large supply  
of coal on hand, and their concern  
is with the car situation, which  
will necessitate a shutdown when  
the warehouses become over-  
stocked with storeware.

Conditions are still normal on  
the Burlington, the strike not as  
yet affecting that road, and the  
White Hall Sewer Pipe & Stone-  
ware Co. can operate with the ser-  
vice of that road. It is not like-  
ly that the machinists on the Bur-  
lington will strike without or-  
ders from their union leaders.

followed up her success at Peoria  
last week by winning first at La-  
Harpe on Wednesday in 2:11 1/2.

by Allen Brothers of Indianapolis.  
Charles Cleveland was called  
to Bowling Green, Mo., Wednes-  
day by the serious illness of his  
mother, Mrs. Francis Cleveland,  
formerly of White Hall.

Albert Ruckel, uncle of C. A.  
Ruckel of this city, died at his  
home in Akron, Ohio, Wednesday.  
The first wagon load of home  
grown watermelons came to town  
on Thursday from the northwest  
corner of the county.

**WIND STORM STOPS CIRCUS PERFORMANCE**

Bloomington Blow Halts A. G. Barnes Show in Afternoon.

The A. G. Barnes trained animal show, which will visit this city August 13, received a strenuous reception at Bloomington Wednesday, when partially wrecked by a severe windstorm. The storm accompanied by rain played havoc with trees in all sections of Bloomington and caused much wire trouble for telephone and electric light companies. The storm struck Bloomington shortly after 3 o'clock. The afternoon performance of the show was cut short. When the performance was about half over the storm broke, and a panic was averted when the crowd was told of the approach of the wind and rain by a show man who announced that if the spectators wished, the show would continue, but no body in the canvas top wanted to take a chance.

The wide canvas wings were lifted and the crowd poured out as the wind caught the tents and whipped them into billowing sheets. The tents were emptied without much disorder and no injuries. Altho the tents were badly twisted the circus suffered little damage. Canvas men straightened the tops after the storm and had them in readiness before the night performance. The animal tent suffered the worst whipping. It made a very uncomfortable 15 minutes for the thousands in the circus tent who made their break for the outdoors. They had hardly gotten outside the canvas when the wind stirred up clouds of dust from the roads in the vicinity which had been beaten up by the heavy traffic. Clothing was matted with dust.

The houses in the immediate vicinity of the grounds were crowded with refugees from the storm while hundreds of others made for the street cars two blocks away. It was feared for a time that the animal cages might be overturned and some of the wild animals freed.

**RAIN STORM STOPS WORK OF THRESHING**

Little Business Being Contracted at Local Grain Elevators Thursday.

As the result of the storm of Wednesday night the operators of the local grain elevators were given a breathing spell yesterday after the strenuous days of the past few weeks. The rain effectively stopped the work of threshing throughout the county and no grain was hauled into the city.

At the Lewis-Clary elevator it was stated that they have still storage room in the elevator enough to take care of farmers for some little time, even the strike conditions prevent the securing of cars. They have several cars on the Wabash siding but as the Wabash is moving no freight they would of course be of no use even tho the cars could be moved to the elevators.

At the F. J. Blackburn elevator on East College avenue it was stated that they still had some storage room for grain but had been fortunate lately in securing several cars on the Burlington

## Social Events

### Birthday Party.

Miss Margaret Benson celebrated her birthday Thursday by inviting a number of her friends to her home on West College avenue during the afternoon. Games of various kinds were enjoyed and the time proved very delightful. Refreshments were served by the hostess.

### Mrs. W. H. Hinrichsen Entertained Thursday.

Mrs. W. H. Hinrichsen of Alexander entertained a number of friends at her home Thursday afternoon in honor of her sister-in-law, Mrs. E. F. Hinrichsen, of

Quincy. The Hinrichsen home was prettily decorated for the occasion with roses, hydrangea and clematis, and the twenty five ladies present enjoyed the occasion greatly. The guest of honor was formerly a resident of Alexander and has many friends in that community.

### Gave Birthday Party In Honor of Daughter.

Mr. and Mrs. W. G. Benson entertained a number of young folks at their home, 803 West College avenue, Thursday afternoon in honor of the 10th birthday of their daughter, Margaret Benson. Games and music furnished amusement and refreshments were served.

Those present were Leah Tamm, Irene Tamm, Frances O'Donnell, Ruthannette May, Beata Armstrong, Olive Brady, Pauline Bray, Rose Evelyn Gaul, Margaret Elliott, Helen Richards, Betty Lane, Mary Bohman, Francis Plouer, Harold May, Emmett Barton, Jane Hyer, Francis Cox, Florence Cocking, Rhoda Rammelkamp, Doris Perry, Katherine Kamm, Earl Perry, and Harry Perrin.

### Missionary Society of First Baptist Church Met.

The Missionary Society of the First Baptist church met Thursday afternoon in the church parlors. There was a good attendance of the members and the afternoon was a most profitable one. Miss Etta Massey was in charge of the devotional exercises and Miss Massey also had the program of the afternoon. The subject was the industrial and agricultural development in India, and the leader handled the theme in a very interesting and informing way.

The next meeting of the society will be held the first Thursday in September, when Dr. A. A. Todd will be the leader. This will be the quarterly missionary tea, and the members of the society who have had birthdays during the quarter will be the hostesses.

### Opportunity Circle Entertains Men's S. S. Class.

The members of the Opportunity Circle of Grace church Sunday school, of which class Mrs. F. B. Madden is the teacher, enjoyed the annual picnic at Nichols park Thursday evening. Members of the men's class taught by J. J. Reeve were the guests of the ladies and altogether there were more than one hundred who attended the picnic. At 7 o'clock a most excellent picnic lunch was served and this was a feature which all thoroughly enjoyed. The arrangements for the picnic were made by Mrs. L. D. Meldrum, president of the class assisted by the social committee, and they had overlooked nothing which would in any way add to the pleasure of the event.

## HE LAY HELPLESS FOR FOURTEEN WEEKS

J. N. Purcell Never Expected to Be a Well Man Again—Tanlac Built Him Up.

"When a man has suffered for over twenty years, finally getting right down on the flat of his back, and then finds a medicine that fixes him up in a few weeks time so he is like new, it is time for him to talk for the good he may do others. Well, that is exactly what Tanlac has done for me and I want everybody to know it."

J. N. Purcell, of 223 East Front street, Bloomington, Illinois, who made the above statement recently, also declared that at the time he began using Tanlac he only weighed one hundred and twenty pounds, but that he now weighs one hundred and sixty-five pounds and the remarkable change he has undergone is the talk of all his neighbors.

"For over twenty years," he continued, "I had suffered from stomach trouble and painful disordered kidneys, and have often been in the time when I would have given all I had for relief. Yes, I have even reached the point sometimes, where I felt that I would rather not live at all than be in such misery. My stomach was in such a fix that I would almost die with pain after every meal, and what little I did eat seemed to me no good, as I lost weight all the time and got to where I had no strength. Finally my kidneys and bladder got all out of order and I got right down on the flat of my back where I lay for fourteen weeks as helpless as a baby. My back hurt me so bad day and night that I could hardly stand it. It was weeks before I was able to even get out of the house. I was almost nothing but a skeleton and never expected to be well again."

"One day a friend came to see me and told me how wonderfully Tanlac had helped him. I knew he had been in an awful argument to convince me about Tanlac. So I had the folks get me a bottle and in just a few days I felt new strength and energy coming to me. I soon got so I could eat like a wolf. Just anything I wanted, and all my stomach misery left me. My kidneys and back improved right along and in less than five weeks I was able to go to work. I have taken eight bottles of Tanlac now, and haven't felt so strong and well in twenty five years. I just sit right down now and eat anything and have no fear of it hurting me, and kidneys and bladder never bother me the least bit. When I first began on Tanlac, I only weighed one hundred and twenty pounds, but I now weigh one hundred and sixty-five, and my neighbors are constantly talking about my wonderful recovery. Just give me Tanlac and you may have all the other medicines."

Tanlac is sold in Jacksonville by Coover & Shreve; in Mercedosa by Mr. R. B. Field; in Murrayville by M. E. Gilbert; in Waverly by the Wyle Drug Co., and in Woodstock by the Hoy Pharmacy.—Adv.

### Miss Galtens Entertains Guests.

Miss Cecilia Galtens, of North Main street, pleasantly entertained a number of guests at her home Thursday evening, the gathering being in honor of her birthday. Those present were Misses Helen Rustemeyer, Louise Anders, Genevieve Westrope, Marie Earley, Mary Powers, May Bradley and Mary Galtens, and Messrs. Norman Vieira, Paul Devlin, Harry Martin, Clifford Walsh, Jactus Tribble, Francis Keating, William Benson and Chester Hall. The home was charmingly decorated for the occasion and the evening was thoroughly enjoyed by all present. Refreshments were served at a late hour and the guests departed wishing Miss Galtens many happy returns of the day.

### Birthday Party for Floyd Hayes.

Mr. and Mrs. Robert Hayes gave a birthday party in honor of the eleventh birthday of their son, Floyd Hayes, on last Friday night. There were about one hundred guests present and the evening was a most pleasant one. Music and various games were enjoyed and at a late hour all departed with many good wishes for the young man.

The guests included Walter Pearneyhough and family, Mr. and Mrs. Fred Scholfield and family, Mrs. Luther Culp, George Griffin, Clarence Barry, Jesse Hawk, Otis Whewell and family, Miss Minnie Weeder, Sam Wilds and family, Willis Suter and family, Floyd Suiter and family, Harry Lawson and family, William McCarty and family, Ray Dawdy and family, Miss Lida Dawdy, Joseph Hagen and family, Harmon Jones, Thomas Tankersley and family, Mrs. John Myers and son Donald, Estelle Frost and family, James Jackson, James Lawson, Miss Mary Lawson, Smith Jackson, Edward Hayes and family, Elmer Hayes and family, Frank Hart, Montie Hart, Helen Hart, James Hart, Jr., Everett Smith.

## FLOYD WILLIAMSON NOW IN NEW YORK

Jacksonville Man Still in U. S. Navy in Transport Service.

Word has been received from Floyd Williamson at New York stating that he is enjoying a few days in New York following a recent trip across the water in one of the government's transports. Mr. Williamson is still a member of the navy but expects to receive his discharge probably after another trip to France on the transport. He has made several trips across the water. On one occasion the transport on which he is stationed landed at New York on one day and started on the return trip to France four hours later. This particular transport has been leased to the government for four months. The lease will be up Sept. 1 and it is Mr. Williamson's opinion that after one more trip the government will release the vessel and discharge a number of the men who have been assigned to duty on this ship.

## EMPLOYEES OF BRIDGE COMPANY INJURED

Charles Riggs and James Nunes Hurt in Same Way During Past Week.

Charles Riggs, an employee of the Illinois Steel Bridge Co., was struck in the chest by a sledge Wednesday afternoon and it was thought for a time that he had sustained internal injuries. He was taken to Passavant hospital where Dr. William P. Duncan made an examination and found no bones were broken. He was able to leave the hospital yesterday morning, going to his home on South Mauvalsterre street, where last evening he was reported to be resting easily.

Nunes Back at Work. James Nunes, also an employee of the Illinois Steel Bridge Co., was struck in the chest by a sledge several days ago and suffered the fracture of one rib. He was able to return to work yesterday morning.

### FAVORS BOND ISSUE

I think a bond issue is the thing to pay the city's debt but the issue must be voted by the people and they will not vote for an issue of bonds if they think some bankers are going to make a lot of money out of the outstanding warrants. These were made 20 per cent larger than the sum they were intended to pay in order that the holders might realize on the city's indebtedness. Now if it can be so arranged that the holders of the city warrants will accept the sum the warrants were meant to pay, deducting the 20 per cent, and let the people understand it I am certain the bonds would be approved by the people at the polls. Then by some means we should try to live within our income.

deer bill:

I see in our daily papers that we get every day some days that the city council and some of our citizens are in favor of issuing bonds to pay of the debts the city owes. now that might be a good scheme but what I want to know is how in sam hill there goin to git the money to pay of those bonds. i know how it could be done very easy. just issue bonds in series, say A, B, C, etc., when serious "a" is due, issue serious "B" to pay of "a" and so on—I may be related to Andy Gump but it looks to me like this—some day we are goin to have a cracker jack water system—why not issue bonds to get it quick, move the city light plant to the dam, make it larger, sell water and electricity, and if properly managed together they would not only get the city out of the hole but I believe in time would make enough money to reduce taxes.

Yours truly, JACK  
 P. S.: They could add an ice plant to it very easy, and say bill, they sell ice in this town at 60c a hundred and bill how much do you think it costs to make a ton of ice. make some inquiries from some one who knows and won't lie about it and you will be surprised.

## SACRED HEART CHURCH PICNIC GREAT SUCCESS

Franklin Church Holds Annual Picnic—Receipts Will Run Over \$1,500—Threatening Weather Kept Crowd Away Early in Day.

Despite threatening weather early in the day which kept many people away, the annual chicken fry of Sacred Heart church held at Franklin Wednesday was a big success. The receipts, probably

will run over \$1,500 and there was not nearly enough to go round.

During the day four hundred chickens were disposed of and probably 200 more could have been sold if they had been prepared. The crowd was late in arriving, but when it finally assembled it was estimated as one of the largest that ever assembled for a similar affair in Franklin.

The principal address of the day was delivered by George M. Morgan of Springfield. Mr. Morgan took for his topic present day economic conditions and his remarks were heard with close interest. In addition to the address the following contests were held:

Boys foot race—Oliver Hocking, first prize necktie, second, Morris Stansberry, prize pocket knife.

Girls race—Margaret Henry, first prize brooch; second, Virginia Aldridge, prize, beauty pin. 100 Yards Dash—Glen Snow, first, prize flashlight; second, Vernice Ralston, prize, tie clasp.

Running Broad Jump—L. Sublett, first prize, neck tie, second, Glenn Snow, prize cuff links.

Fat Man's Race—Albert Underwood, first, prize, belt; second, Scott Tranbarger, prize, buggy whip.

Nail Driving Contest—Mrs. James Wright, first, prize, box stationery; second, Agnes Bergschneider, box candy.

Best Angel Food Cake—Mrs. James Wright, first, prize, sack flour, second, Mrs. John Kenedy, \$1 cash.

Cocoonut Cake—Mrs. James Wright, first, prize sack flour, second, Miss Maggie Donahue, \$1 cash.

## A. H. T. A. BARBECUE HELD AT WINCHESTER

Home-Come Picnic at Monument Park Decided Success Thursday—Large Crowd Attends—News Notes.

Winchester, Aug. 7.—The A. H. T. A. barbecue and home-coming picnic held at Monument park today was a great success. There were over 1,000 pounds of delicious beef, nearly 250 gallons of ice cream, 400 gallons of burgoo soup, chickens, cakes, pies etc. Practically all these supplies were sold out at an early hour, as the crowd was one of the largest which ever gathered in Winchester.

The members of the association, their wives, daughters and many volunteers, did splendid work in serving the guests. The Roadhouse band furnished good music. There was also a colored quartet from St. Louis which entertained the crowd throughout the afternoon. A platform dance was much enjoyed by the young people. Scott county soldier boys were served free of charge by the association. All of the soldier boys registered as they arrived and were given badges which entitled them to the dinner.

The receipts of the barbecue were not available late this evening.

Mrs. Scott Carter has returned after a week's visit in Camp Point and Hersman, Ill.

THE CHICAGO OPERATIC COMPANY

In presenting the Chicago Operatic Company, the Chautauqua is a large one, but the management believes that it has secured the best organization of the kind in America. The personification of quality remains long after the price is forgotten, and it is of success in Chautauqua as well as in the Chautauqua when an attraction appears will justify the big expenditure. The only kick-justifies that belief. The managers believe that there is a will be those who fail to hear well defined desire on the part of the Chautauqua patrons for the best golden opportunity of hearing the music which can be secured, regardless of the price, and it has Chautauqua platform.

## NEW BENCHES ORDERED FOR CENTRAL PARK USE

Park Board Holds Regular Meeting Thursday Evening.

The park board met in regular session last evening with all members present except Mrs. Wehl.

The secretary presented the financial statement to the board showing its present condition.

It was decided to move the horse barn from its present position which will be overflowed by the coming lake or new water-works, and put it on the dam ground, just east of the dam where it will be as little in the way as possible. A small foot bridge capable of accommodating one horse at a time will be built across the spillway and feed can be hauled around the other way. After much discussion this seemed the best place for the barn as it will be convenient to the home of the workmen and high above water and as much out of the way as can be.

It was voted to permit the use of the park for chautauqua as usual the association to pay \$150, which is just about the cash cost of policing the grounds and cleaning up after the entertainment. This is understood to be wholly satisfactory to the chautauqua board.

It was also voted to permit no dancing in the large pavilion during chautauqua season more than the regular times in the season contract.

It was decided to place ten more seats in central park, two in each quarter and two for the convenience of persons waiting on the south side for street cars.

The persons using the eating pavilion during the chautauqua are to be at the expense of properly screening the structure.

Three bills for expense of caring for and protecting central park during the Fourth of July celebration were ordered paid.

**MRS. WM. McDONALD  
INJURED IN RUNAWAY**

Three Year Old Daughter Has Wild Ride Behind Plunging Horse and Is Unhurt.

Mrs. William McDonald, residing east of the city was painfully injured in a runaway accident Wednesday afternoon about six o'clock. While returning to her home from Jacksonville with her three year old daughter, Mrs. McDonald in some way dropped the reins and the horse started to run away. In trying to recover the reins Mrs. McDonald fell from the storm buggy in which she was riding and when picked up a little later was in an unconscious condition.

The horse continued on the way home and near the Hickory Grove school house was stopped by the Vieira boys. The small child had kept her place in the buggy and aside from being badly frightened was no worse for the experience.

Mrs. McDonald was taken to her home and Dr. J. U. Day was called to give the necessary medical attention. Several stitches were required to close one of the wounds in her head and she also suffered a number of bruises and minor injuries. It is fortunate that the accident had no serious consequences.

## MACON COUNTY LAND AT \$500 PER ACRE

According to the Deatur Herald another farm land sale has been recorded in Macon county. Charles A. Hall of Niantic sold 360 acres of land to Joseph Clinton of Cisco at \$500 per acre. Mr. Hall purchased the land in 1874 at \$50 per acre. The new owner is a farmer who recently sold his own farm of 130 acres at \$400 per acre. Three days later the same tract brought \$440. While \$500 per acre is a high price in Macon county, it does not equal the record there, as an unimproved farm sold there a month ago at a price of \$545 per acre.

## Matrimonial

### House-Hill

Huffaker House and Miss Cleota Hill both of this city were united in marriage Thursday evening by the Rev. M. L. Mackey, pastor of McCabe M. E. church. The wedding was a quite affair and the ceremony was held at the home of the Rev. Mr. Mackey and was witnessed by only a few relatives and friends. Both are well known young people, industrious and thirty and will have the best wishes of a large number of friends. They will reside at 769 South Fayette street.

Majestic Ranges  
At Our Store—One Week

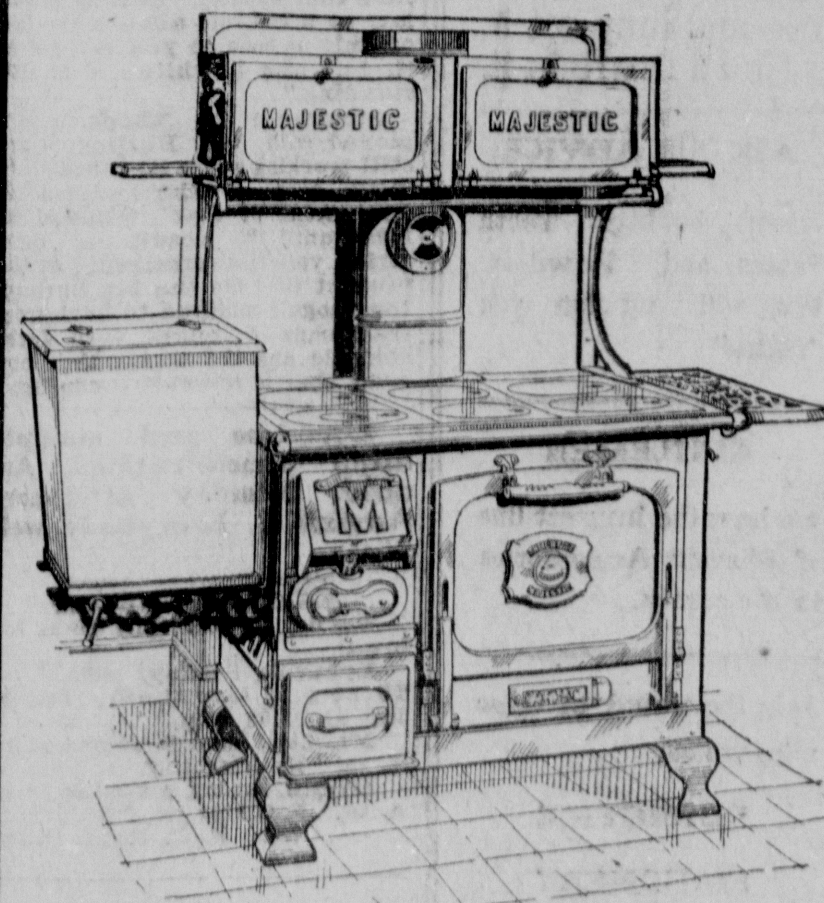

Only  
AUG. 4 TO 9TH INCLUSIVE  
To Be Truly Economical There  
Should Be a Majestic in  
Your Kitchen

THE BARGAIN  
And It's Well Worth Your  
While

Through special arrangements with the manufacturers, and during this Bargain Week only a beautiful, useful and substantial set of Cooking Ware will be given with every Majestic Range sold. This ware is good ware (not cheap ware)—it's worth a lot to you. Come and see for yourself.

AND REMEMBER—The price of a Majestic Range this week will not be increased, and there will hardly be a great reduction for years to come, if ever, but there may be an increase soon.

YOUR OPPORTUNITY IS HERE—At our store—during our Majestic Bargain Week. It's your chance to get acquainted with real facts about ranges. We assure you it will be worth your while to investigate.

### Two New and Important Features

**THE WONDERFUL UNSEEN RIVETING**—Yes, it's rivet-tight, just like the old Majestic, but the rivets clinch inside of nickled parts, leaving nickel smooth as glass, and there are no big, bulky bolt-heads on the inside. And, remember, rivets hold tight; bolts with only one or two threads holding are bound to work loose and cause no end of trouble. The Majestic is smooth inside and outside—it's a striking beauty—more than skin deep.

**OH, JOY! TOP NEEDS NO BLACKING**—A smooth, highly polished cooking top, burnished blue, not only adds to the beauty of the Majestic, but absolutely eliminates the work, dirt and worry of trying to keep the range looking nice—just an occasional thin coat of paraffine retains its beautiful velvet blue color. If you haven't a MAJESTIC, avail yourself of this opportunity to get acquainted with this wonderful range—know the inside of ranges.

## BURLINGTON MOGULS STILL ROLLING FREIGHT

The Q is Only Railroad Handling Freight Thru City Lie Change in Strike Situation Locally.

On the surface the railroad shopmen's strike situation seems to be just where it was three days ago, or five days ago. All of the shopmen at the Chicago, Peoria and St. Louis railroad shops are still out. The clerks have been out since Monday. The round-house laborers went out at the very beginning last Saturday noon. They all assert their determination to stay out.

Under the surface there are currents and counter-currents that may mean much or nothing. It is now generally and frankly admitted by the national officials of the railroad organization and it continues in violation of their orders to return to work. If the strike against orders continues to gain ground it will ultimately bring about a complete tieup of all the railroads. If it does not gain ground the strike will be short lived.

**No Train to Havana.**  
The passenger train made no trips to Havana yesterday over the C. P. & St. L. tracks for the first time in many months. There was no one at the shops to get the passenger engine out Thursday morning and the trainmen were unable to do anything.

**Run on Schedule.**  
Passenger trains on the Chicago & Alton continued during the day yesterday on fair schedule time despite the fact that all Alton shopmen are out.

**Wabash Trains Late.**  
On the Wabash the passenger trains continued to operate, but in a number of instances were from one hour to three hours late. No freight trains have been running on the Wabash or Alton roads for several days.

**Wabash Men Meet.**  
Brotherhood men were present at a meeting held by the Decatur shopmen yesterday with the object of suggesting some means of ending the strike. Most of them are idle and likely to remain idle as long as the strike continues.

A member of the brotherhood at Decatur after the meeting said: "They are not getting anywhere. They are not conducting any negotiations. The Wabash is powerless to settle with them. The strike is unauthorized and no one is in a position to settle with them. In the meantime it is hurting the Wabash. The business of the road is going to other lines. We are idle and to no purpose. The only thing which the striking unions are doing is trying to get others to join them."

**Summarizes Situation.**  
A man who belongs to one of the striking unions when asked Thursday about the strike situation sized it up as follows:

"There are three things that have brought about this strike. First, there is the high cost of living, which we all know about. Second, Washington is too slow about adjusting any matter that is brought up to them. Third, a lot of union men are sore at their national officials and this is the beginning of an effort to oust them."

"Now as to the time this strike will last that all depends. As I see it the matter at issue is a national question and the only way to settle it is to go about it in a national way. It can't be settled by a local strike."

"As to whether the national officials are right or wrong in not making this a national issue at this time, I have only to say that I believe in obeying the law or rule that applies. If it is a bad law or a bad rule abolish the law or rule as soon as you can get at it, but obey it while it is still standing."

Meanwhile the shopmen employed with the Burlington are still working and will continue to take care of the mechanical equipment of that railroad at least until the result of their strike vote is ascertained. At the present time the big Burlington moguls continue to haul great trainloads of freight thru Jacksonville and the Q is the one road that is revenue producing.

## TRANSFER BARN FIRE IS HEAVY LOSS

McBride and Eades Estimate Loss on Building and Contents at \$5,000—Only Carried \$2,000 Insurance—Others Also Are Losers Thru Fire.

The loss on the Jacksonville Transfer company's barn which burned early Thursday morning together with the loss on contents will total close to \$8,000.

Messrs. McBride and Eades, owners of the business, stated yesterday that the building was valued at \$2,000 and the contents owned by them at \$3,000. They carried a total of \$2,000 insurance.

It is not likely, however, that the barn could be erected for the original cost at the present time. It is also true that the prices on wagons has advanced materially so that it is hardly possible that wagons could be bought at anything near the figure which they paid for the wagons that were burned.

In addition to the loss of McBride and Eades there was a quantity of stuff stored that belonged to other firms. The International Harvester company had eight mowers and 200 bags of binder twine in the barn. Roughly estimated its loss is probably close to \$2,000.

The Journal company had 28 rolls of four page print paper. It is probable that some of this can be salvaged but it cannot be used for newspaper purposes.

L. F. O'Donnell had a number of Wasco garage heaters stored in the barn, it is not known just how many. It was reported that George Schmalz, the grocer, had a quantity of sugar in the barn but it had been removed.

A part in the engine of one of the motor fire trucks was broken at the fire. Chief Hunt telephoned to Chicago to the company and the part for replacement was sent out of Chicago at 3 o'clock Thursday afternoon and probably will be delivered this morning.

## SCHOOL BOARD FINDS CHANGES NECESSARY

Cannot Issue But \$220,000 Worth of Bonds for New Building—Must Run Thru Period of Twenty Years—Amended Resolution to Comply With Law.

When the Board of Education met last Monday evening a resolution was adopted calling for an election to vote on the issuance of \$250,000 worth of bonds for the erection of the new high school building.

These bonds were to run thru a period of twenty-five years. Later it was found that the board could only issue bonds to the amount of \$220,000. It also was found that the bonds could only run thru a period of twenty years.

When President Lippincott found out these facts he immediately had the secretary call a special meeting of the board which was held Thursday evening. There were present President Lippincott and Members Duncan, Hopper, Metcalf, Parker, Pierson and Rogerson.

**Rescind Former Action**  
President Lippincott explained the situation to the members and said that the blunder was entirely his fault. He said that a resolution had been prepared to rectify the mistake and that it was necessary to rescind the action of the board at the regular meeting and pass the new resolution. The call for the meeting was read which stated that it was for the purpose of passing a new resolution and to take such steps as were necessary to call an election for the issuance of bonds.

On motion of Member Metcalf seconded by Member Hopper the action of the board relative to the passage of the resolution calling an election for a bond issue be rescinded.

The resolution was read providing for the issuance of bonds in the sum of \$220,000.

Member Duncan asked if the contract could be let and the work proceed before the bonds were actually issued. This matter brought up a general discussion. The president said it was a matter that should be looked into carefully before anything was done.

**Authority Vested in Board**  
Superintendent Perrin said that one point had not been brought out so far that the people should know. That was that the authority to erect a high school building lay entirely within the power of the board. The only question at issue was whether or not the tax payers would rather have the amount spread over a period of years or have it levied by the board and all come within a period of two or three years.

Some discussion also came up about the date of issue of the bonds. It was thought that perhaps it would be advisable to have the bonds date from December 31, 1919, instead of July 1, 1920, as originally planned. On motion of Member Hopper seconded by member Metcalf the date was changed to December 31, 1919, and the subsequent dates for the payments of bonds changed to conform with this date. The motion carried unanimously.

**New Resolution Adopted.**  
The resolution as amended was then voted upon and also carried by a unanimous vote. Under the new resolution the bonds will run thru a period of twenty years from December 31, 1919 to December 31, 1939, both inclusive. The principal is payable \$11,000 yearly instead of \$10,000 as provided for in the first resolution.

A number of minor matters were discussed informally but it was felt that nothing should be done at this meeting that would likely invalidate the action taken on the bond election. On motion of Member Rogerson seconded by Member Metcalf the board adjourned.

## LONG TIME RESIDENT OF MORGAN COUNTY DIES

Mrs. Frances Rawlings Dies  
Thursday at Her Home Near  
Woodson—Funeral to Be Held  
This Afternoon.

One of the oldest residents of Morgan county passed away yesterday when death came to Mrs. Frances Rawlings at her home near Woodson. Altho nearly 92 years of age she was in fairly good health until just a few days ago when illness compelled her to become bedfast. Her cheerful and sunny disposition has endeared her to many hearts and her passing will be a great regret to many, a large number of residents of this vicinity.

Frances Rawlings was born Sept. 26, 1827, in Yorkshire, Eng., and died August 7 at 12 o'clock. On Feb. 26, 1846, she was united in marriage to James Rawlings. To this union were born eight children, four of whom preceded her in death. Those still living are John H., Mrs. Sarah Mortimer, James E. and Robert S., besides a great many grandchildren and great grandchildren, and a host of relatives and friends who mourn her death.

The death of Frances Rawlings marks the passing of one of Morgan county's oldest residents. Had she lived until September she would have been 92 years of age, having come to this county 90 years ago with her parents, John Hembrough and wife, who left Yorkshire, England, April 14, 1827, and landed at Quebec after a voyage of 12 weeks. They came to Morgan county and purchased from the government a farm west of Jacksonville, the deed to this land being distinguished by the signature of Gen. Andrew Jackson.

Aunt Frances as she was familiarly and affectionately known, has left to her descendants and friends a great heritage by example of a life given for others. Early she became a Christian and with her husband was a charter member of the Durbin M. E. church.

Her husband passed away Oct. 26, 1909, at their home near Durbin church. After his death her daughter, Mrs. Mary Seymour, came and cared for her until her death, since which time Mrs. Rawlings has made her home with her daughter, Mrs. Sarah Mortimer, near Woodson, where her comfort has been most tenderly and amply cared for.

She has always been of a kind and cheerful disposition, ever ready to lend a helping hand or give a word of encouragement wherever she could. She took a keen interest in the happenings of the day, always reading the daily paper, but anyone calling on her would most likely find her with her open Bible in her lap and a smile of peace on her face, "that passeth all understanding" and if asked concerning herself would say "I am just waiting."

A few days ago she was taken to her bed and thru the weeks of intense suffering that followed she has borne it all with Christian grace and fortitude, knowing that she soon would be at rest. The funeral will be held this afternoon at 4 o'clock at Asbury church, services in charge of Dr. G. W. Miller. Interment will be in Asbury cemetery.

### BIDS FOR COAL

Sealed bids will be received by the city council until 10 o'clock noon, Monday, August 11, 1919, for coal needed at the south pumping station and the municipal light plants. Bids are asked on 3 inch 11-2 inch lump and mine run coal delivered at the pumping station and 11-4 inch screenings, 3 inch lump, mine run, slack and washed coal delivered at the light plant. The right is reserved to reject any or all bids. All coal is to be weighed on the city scales.

R. L. Pyatt,  
City Clerk.

### THEY GOT THE FERRIS WHEEL THERE

Mr. Sullivan said the Eli Bridge Co. of Roodhouse was named Eli there and they carry it out. They sold a ferris wheel to a party in Mt. Sterling and it was to be delivered today. Wednesday it arrived here on the Alton and stuck for lack of freight traffic on the Wabash but Mr. Sullivan didn't mean to be held up by a little thing like that so he secured a truck and three teams of Mr. Barbre loaded the affair from the cars to his road vehicles and started the teams on their way. Mr. Barbre heard yesterday from the men that they were half way to Mt. Sterling and saw no reason why they shouldn't make the trip all right.

## MORGAN COUNTY FARM TOPICS

The heavy rain Thursday morning again put a stop to threshing operations thruout Morgan county. In none of the fields reported was it possible to thresh Thursday and in most localities the wheat will be too wet this morning for the threshing. However, if sunny weather continues the separators will be busy this afternoon. But as was true with the other showers in recent days, the wet weather has been fully a benefit to the grain situation, as it has stopped the flow of grain to the elevators and has given the opportunity for making shipments. Cars are hard to get but the elevator men by continuous effort have been able to get some of the needed equipment, with the result that grain Wednesday and Thursday moved from the elevators more rapidly than it has recently. The unfortunate congestion has therefore been somewhat relieved.

J. H. Readhimer, of the department of agronomy who is to give a demonstration for the uses of limestone at Arnold Saturday afternoon, is expected to arrive today. In this event Mr. Readhimer in connection with County Agent G. B. Kendall, will make several community demonstrations. It will not be possible to arrange an elaborate program of this kind but small groups of farmers will be reached and Mr. Readhimer will present facts to show what lime will do for Illinois soil.

In the earlier days of lime advocacy for soils most farmers hereabout felt that the plan was all very well for the thin soil of southern Illinois or in some remote parts of the state. But they did not feel that the rich soil of the corn belt needed this kind of addition to its fertility. But actual tests have shown that many of the high class farms of the corn belt are greatly in need of lime. Lime supplies nothing itself except as it makes the growing of legume crops possible or better.

There are farms in this locality accounted as worth \$250 or \$300 an acre where clover has not grown in a satisfactory way for several years. In most instances test of the soil will show that the soil is acid and that the way to correct this condition and to make the growth of clover or other legume crops of a satisfactory kind is to apply limestone. Fortunately the price of limestone for fertilization purposes has not increased in a very large way. Freight costs somewhat more than used to be the case but limestone for fertilizer is still obtainable at a very reasonable price.

Dr. L. H. Bailey in a recent book, "The Country Life Movement," makes strong plea not only for better farming but for improved conditions in community life. He says the development of the school, the church and community enterprises are more important than increasing soil fertility or bettering the types of animals raised on the farm. This student of country life conditions sees reasons why as much attention should be paid to landscape gardening, to architecture, to library facilities and things of that kind on the farms as is done in the cities.

Dr. Bailey makes a special plea too for the farm home keeper and says that "I think it important that there should be some means and reason for every farm woman going away from home at least once a week, and this wholly aside from going to town to trade. There should be some place where the women may come together on a different basis from that of the ordinary routine and the usual buying and selling.

"This social center might focalize in the church but I think an ideal place would be the rural library, and I hope to see the day when there will be such libraries in every country community.

There have been undoubted benefits from the various boys and girls clubs organized in Illinois for feeding calves. To stimulate further interest in this important livestock work the Armour farm bureau at Union stock yards has announced prizes valued at \$600 to be given to champions in these clubs. The prizes will be mostly in the form of trips to the international livestock show and short course trips to Urbana.

## BRICK PAVEMENT ON COUNTY ROADS

The fact that there is still a difference of opinion as to the best type of pavement to be used for Illinois hard roads is indicated by the fact that in Sangamon county the next hard road to be put down will be 3-inch monolithic brick. The contract for the so-called Beardstown road was let to John E. Bretz at \$106,736.83. The contract for the South Sixth street road was awarded to Sell & Kohler of Pana for \$109,433.42. Altogether 6.7 miles of pavement are to be put down and on the basis of the bid the cost is about \$40,000 a mile. The contracts provide that at least 60 per cent of the work must be completed this year.

## BAD BREATH Caused by Acid-Stomach

How can anyone with a sour, gassy stomach, who is constantly belching, has heartburn and suffers from indigestion have anything but a bad breath? All of these stomach disorders mean just one thing—Acid-Stomach.

EATONIC, the wonderful new stomach remedy in pleasant tasting tablet form that you eat like a bit of candy, brings quick relief from these stomach miseries. EATONIC sweetens the breath because it makes the stomach sweet, cool and comfortable. Try it for that nasty taste, congested throat and heady feeling after too much smoking. If neglected, Acid-Stomach may cause you a lot of serious trouble. It leads to nervousness, headaches, insomnia, melancholia, rheumatism, scurvy, all tired out. It often brings about chronic invalidism, premature old age, a shortening of one's days.

You need the help that EATONIC can give you if you are not feeling as strong and well as you should. You will be surprised to see how much better you will feel just as soon as you begin taking this wonderful stomach remedy. Get a big 50-cent box from your druggist today. A Cut—Skin Abrasion  
—Then You Need  
Pure, Safe Soap

A tiny cut in itself doesn't  
amount to anything. Trouble,  
if there is trouble, arises from  
infection caused by some foreign  
substance lodging in the wound.

Remmo possesses a wonderful power of pen-  
etration—the pure cleansing, sterilized lather  
works down into cuts, wounds and the tiny pores  
of the skin dissolving and entirely removing all  
dirt and accumulations injurious to the skin  
and often endangering health itself.

Remmo Sterilized Toilet Soap is not an  
emergency soap—just a medicated soap—but an  
everyday all-purpose toilet soap absolutely pure  
and best suited to the needs of cleanliness, pro-  
tection against infection and promotion of skin  
beauty.

You must use a toilet soap. Why not  
use the most beneficial? It costs no more.

Asserts New Discovery

## Brings Blessed Relief to Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubters and  
scoffers, a man in Kentucky, who  
changed his annoying and distress-  
ing hay fever into less than a mild  
cold, claims most emphatically  
that if taken in time hay fever can  
be conquered or at least made so  
harmless that it is not even bother-  
some.

He gave his discovery to scores  
of other sufferers with the most  
remarkable results and has re-  
cently been prevailed upon to dis-  
pense it through pharmacists to  
all hay fever sufferers who still  
have faith that nature has provid-  
ed an effective remedy for this  
common yet miserable disease.

And best of all this remedy costs

almost nothing. Get a one ounce  
bottle of Mentholated Archie at  
any drug store, pour the contents  
into a pint bottle and fill the pint  
bottle with water that has been  
boiled.

Then gargle as directed and  
twice daily sniff or spray each  
nostril thoroughly.

That's all there is to it; so sim-  
ple that a lot of people will say  
that it can't do the work but of-  
tentimes simple natural remedies  
are the best as you will find after  
using.

If you will make up a pint and  
use it for a week or ten days you  
need not be surprised if your un-  
welcome yearly visitor fails to ap-  
pear.

even in two close games today,  
the league leaders winning the  
first 2 to 1 and the locals the sec-

turned out to be the winning  
tally.

Bunched hits with bases on  
balls and a wild throw by Wil-

## When The Day Is Over

When the household  
cares and the worries of  
everyday life have dragged  
you down, made you un-  
happy, and there is noth-  
ing in life but

adache, backache and worry, turn to  
the right prescription, one gotten up by  
Dr. Pierce fifty years ago.

Everything growing out of the young  
ems intended for some use in esta-  
lishing natural conditions. Dr. Pierce, o-  
uffalo, N. Y., long since found out what  
naturally best for women's diseases  
learned it all through treating thou-  
sands of cases. The result of his studie  
as a medicine called Dr. Pierce's Favor-  
e Prescription. This medicine is made  
of vegetable growths that nature sel-  
dented for backache, headache, weak-  
ing, bearing-down pains, irregularities  
elvic inflammations, and for the man-  
sorders common to women in all ages.  
le. Dr. Pierce's Favorite Prescription  
ade of lady's slipper root, black cohos  
not, unicorn root, blue cohosh root and  
regon grape root. Dr. Pierce knew  
hen he first made this standard med-  
ne, that whiskey and morphine are in-  
urious, and so he has always kept them  
ut of his remedies. Women who tal-  
as standard remedy know that in Dr.  
Pierce's Favorite Prescription they are  
etting a safe woman's tonic so good that  
reigns everywhere sell it, in liquid  
solid form.

## 60,000 Earlier Hudsons Foretold This Super-Six

Qualities That Men Had Predicted Would Make  
it the Unrivalled Car Have Now Been Realized

Everyone knows Hudson Super-Six history. It is  
written in the official records of some of the great-  
est endurance and speed tests known. It is told in  
nearly every locality by those who know how per-  
formance reveals quality.

But its greatest fame lies in the appreciation that  
thousands of owners hold for it.

You have heard Hudson owners predict its ulti-  
mate achievements. They have praised their cars  
and yet always have said that a greater Super-Six  
was inevitable.

Hudson Evolution  
Came Naturally

Let the reader review the past four years of motor  
history. The Super-Six was a distinct step ahead in  
motor designing. It added 72% to power without  
increased weight or complications.

Its principal was new. Vibration had been mini-  
mized. Performance had been increased.

That first Super-Six revealed a development not  
possible to any other type. It foretold the Hudson  
we now offer.

Each Year Marked  
Some Improvement

New Hudson models are not mere changes in body  
design. Such attractiveness is not overlooked. The  
main effort has been to increase endurance, to free  
it from the faults common to all cars.

Easier starting, more reliability of performance,  
freedom from mechanical attention, a safer, more  
comfortable and more economical car has been the  
aim.

Each added quality has been proved in a thousand  
ways. The speedway, road racing, mountain climb-  
ing, trans-continental touring at express speed, did  
their part. Spectacular records were established,  
but long after details of the world's fastest mile for  
a stock chassis, or the double run from San Francisco  
to New York and return, had been forgotten by the  
public, Hudson engineers continued to profit by the  
lessons learned in those tests. Subsequent models  
showed the result.

Such a car would have been impossible without  
that experience. We did not enter racing to win  
prizes but to learn how to build a better car.

Sales Lead All  
Fine Cars

Like the constant champion it proved to be on the  
race track, Hudson sales exceed those of any other  
fine car.

More Hudson's are built now than ever before. A  
month's output now is as great as was the first  
four month's production of the first Super-Six.

Sales demand, though has always been ahead of  
the supply. That shows how motordom regards the  
Super-Six.

When will you make it your choice?

## Back From Service

After eighteen months of strenuous work for Uncle Sam, **Clarence Wolke** at last has been permitted to return home. For the past year the government has relied upon him in the overhauling and repair of Liberty airplane motors. Stationed at the largest motor repair shop in France, Clarence turned out his work with a speed and exactness that surprised the experts.

Although always a mechanic, Clarence has gained such valuable experience abroad that he would not part with it for thousands of dollars. And now that he is back you will have the rare opportunity of his services for your own motor troubles. We are fortunate enough to have him stationed with us and you could not find a more convenient place to leave your car while having it overhauled. No matter what your automobile troubles may be bring them to us and we will guarantee you satisfaction.

### CORN PRICES CLOSE UNSETTLED AND LOWER

Strike Troubles Hamper Arrivals and Lift Prices, But Report of Larger Food Supplies Counter Balance Effect.

Chicago, Aug. 7.—Railroad strike troubles which hampered the arrival of corn here lifted the corn market today, but the effect was later partly counterbalanced by the federal trade commission report that food supplies were larger than was the case a year ago. Corn quotations closed unsettled 1 1/2 net lower to 4 1/2c advance with September \$1.86 to \$1.86 1/2 and December \$1.50 to \$1.50 1/2. Oats finished unchanged to 1 1/2c lower, and provisions down 10c to 50c.

Owing to the fact that contract stocks of corn here amount to only 250,000 bushels and because of the chance that a complete shut-off from new supplies might take place, material advances which resulted in the price of the September delivery were maintained.

On the other hand sentiment as to the more distant months changed radically during the last half of the day.

In the oats market the governing factors were virtually the same as in corn.

Provisions turned weak when new labor troubles developed in the packing houses here.

## *The Greatest Photographic Spread Ever Issued by a St. Louis Newspaper*

*Eye News-  
Artgravure  
News in Pictures*

You see the news, not merely read it, in the St. Louis Sunday Globe-Democrat's Artgravure Section—marvelous photographs that lay the news before your eye

Actions speak louder than words. Pictures of action speak plainer than print—show you life “to the very life.”

Eye-News takes you right there, makes you a witness of things worth seeing—world-events, the interesting doings of people, the moving drama of life.

Life moves faster than print, but not faster than photography.

We are all children when it comes to pictures—we all love to look at pictures, especially photographs—especially photographs of marvelous perfection that show life like a perfect mirror. That's what the St. Louis Sunday Globe-Democrat's Artgravure Section does. It represents the newest and highest development of photographic art and reproduction, the newest feature of pictorial journalism, and the greatest photographic spread ever issued by a St. Louis newspaper.

The great modern newspaper is fast getting to be more and more of a picture book for grown-ups. *The Globe-Democrat* stands foremost in the new development. The greatest of Sunday Metropolitan newspapers, it mirrors life to the fullest possibility in the completest news and the most comprehensive photographic treatment—it looks to the comfort, the convenience, the time, the pleasure and entertainment of its readers. Instead of a heavy burden that makes a dull and tiresome Sunday, a Sunday Globe-Democrat brightens the day with an hour of delight.

It is new, different, distinctive, better—it speaks for itself.

Read it next Sunday—and every Sunday. Order today from your dealer or carrier.
